Philippines - Balamban Water District (BWD)

Country

The Balamban Water District, commonly known as “BWD”, is a government owned and controlled corporation which provides sustainable water services to 28 barangays.

The Municipality of Balamban is located approximately sixty four (64) kilometers northwest of Cebu City.
Balamban is densely forested area except for a very small portion of land lying along the coastline.

BWD envisions itself to become an innovative and a financially viable entity that provides safe, potable and affordable water and efficient sewerage system for the people of Balamban, Cebu.

About VEI

Established in 2004 by Dutch water utilities, VEI has developed into an effective organization operating worldwide. VEI implements Water Operator Partnerships (WOPs) with dozens of water operators, aiming at sharing knowledge and skills to make the partner water operators stronger, financially sustainable and more (climate) resilient. VEI creates improved access to water and sanitation services, for approximately 350,000 people every year, mostly in low-income areas in Africa, Asia and Latin-America. Standing side by side as water operators, we strive to continuously increase our impact for people living in poverty, by systemically improving the maturity of working processes of our WOP partners, supported by peer-to-peer collaboration, training, technical assistance and smart investments.

VEI is a full subsidiary of Vitens N.V. and Evides Waterbedrijf N.V. and implements the international Corporate Social Responsibility policy on behalf of seven Dutch drinking water utilities:

- Vitens N.V.
- Evides Waterbedrijf N.V.
- WML
- Waterbedrijf Groningen
- Brabant Water
- WLN
- PWN
