Netherlands - Brabant Water

Country

Brabant Water is the drinking water company that supplies drinking water to 2.5 million residents and companies in North Brabant. 800 employees ensure that our customers can count on clean and safe drinking water anytime and anywhere in Brabant. A responsible task and we act accordingly. We do not strive for profit, but for the best quality and service. In addition to drinking water, Brabant Water also offers tailor-made water and specialized services and advice We have placed these customized products and services in four independent subsidiaries: HydroScope, Hydreco, HydrecoGeomec and HydroBusiness.

About VEI

Established in 2004 by Dutch water utilities, VEI has developed into an effective organization operating worldwide. VEI implements Water Operator Partnerships (WOPs) with dozens of water operators, aiming at sharing knowledge and skills to make the partner water operators stronger, financially sustainable and more (climate) resilient. VEI creates improved access to water and sanitation services, for approximately 350,000 people every year, mostly in low-income areas in Africa, Asia and Latin-America. Standing side by side as water operators, we strive to continuously increase our impact for people living in poverty, by systemically improving the maturity of working processes of our WOP partners, supported by peer-to-peer collaboration, training, technical assistance and smart investments.

VEI is a full subsidiary of Vitens N.V. and Evides Waterbedrijf N.V. and implements the international Corporate Social Responsibility policy on behalf of seven Dutch drinking water utilities:

- Vitens N.V.
- Evides Waterbedrijf N.V.
- WML
- Waterbedrijf Groningen
- Brabant Water
- WLN
- PWN
