Philippines - Dalaguete Water District (DWD)

Country

Dalaguete Water District is a well-managed water district providing quality service and sustainable potable water supply to the Municipality of Dalaguete. DWD perceives the necessity to protect, reforest and rehabilitate its water sheds for continuous and abundant supply of water.

DWD commits to develop and improve potable water supplies for environmental water management, increase water supply reliability and ensure concession area satisfaction and strive to attain financial viability through prudent use of financial resources.

The goal of DWD is to provide adequate, affordable and potable supply of drinking water and provide efficient public services in partnership with our concessionaires and the community.

About VEI

Established in 2004 by Dutch water utilities, VEI has developed into an effective organization operating worldwide. VEI implements Water Operator Partnerships (WOPs) with dozens of water operators, aiming at sharing knowledge and skills to make the partner water operators stronger, financially sustainable and more (climate) resilient. VEI creates improved access to water and sanitation services, for approximately 350,000 people every year, mostly in low-income areas in Africa, Asia and Latin-America. Standing side by side as water operators, we strive to continuously increase our impact for people living in poverty, by systemically improving the maturity of working processes of our WOP partners, supported by peer-to-peer collaboration, training, technical assistance and smart investments.

VEI is a full subsidiary of Vitens N.V. and Evides Waterbedrijf N.V. and implements the international Corporate Social Responsibility policy on behalf of seven Dutch drinking water utilities:

- Vitens N.V.
- Evides Waterbedrijf N.V.
- WML
- Waterbedrijf Groningen
- Brabant Water
- WLN
- PWN
