Netherlands - Evides Waterbedrijf

Country

Evides Waterbedrijf is a water company that supplies reliable and tasty drinking water to 2.5 million clients in its home market, being the southern part of the province of Zuid-Holland, in the entire province of Zeeland, and the Brabantse Wal.

Drinking water is prepared from water sourced 80% from the river Maas, 16% from ground water, and 4% from dune water. We are the second-largest water company in The Netherlands based on supply connections, supply volumes and revenue.

Water for industrial clients is extracted 47 % from the Brielse Meer, 40% from the river Maas, 7% from the river Elbe, and 6 % from Belgian polder water. We are one of the strongest players in northwestern Europe in the market for water-on-demand solutions for industrial applications.

Evides also treats waste water from Amsterdam Schiphol Airport and industrial complexes in Vlissingen (Sloe) and in Delfzijl.

About VEI

Established in 2004 by Dutch water utilities, VEI has developed into an effective organization operating worldwide. VEI implements Water Operator Partnerships (WOPs) with dozens of water operators, aiming at sharing knowledge and skills to make the partner water operators stronger, financially sustainable and more (climate) resilient. VEI creates improved access to water and sanitation services, for approximately 350,000 people every year, mostly in low-income areas in Africa, Asia and Latin-America. Standing side by side as water operators, we strive to continuously increase our impact for people living in poverty, by systemically improving the maturity of working processes of our WOP partners, supported by peer-to-peer collaboration, training, technical assistance and smart investments.

VEI is a full subsidiary of Vitens N.V. and Evides Waterbedrijf N.V. and implements the international Corporate Social Responsibility policy on behalf of seven Dutch drinking water utilities:

- Vitens N.V.
- Evides Waterbedrijf N.V.
- WML
- Waterbedrijf Groningen
- Brabant Water
- WLN
- PWN
