Netherlands - WML

Country

WML, in full NV Waterleiding Maatschappij Limburg, is the drinking water supplier for all more than 500,000 households in Limburg. In addition, WML supplies tap water to about 14,000 companies. We do this without a profit motive.

Shareholders of WML are the Province of Limburg and the 33 Limburg municipalities. Nearly 400 WML employees work every day on the extraction, purification and supply of Limburg drinking water. We consider it a compliment that our customers take it for granted that fresh drinking water comes out of the tap at any time of the day.

About VEI

Established in 2004 by Dutch water utilities, VEI has developed into an effective organization operating worldwide. VEI implements Water Operator Partnerships (WOPs) with dozens of water operators, aiming at sharing knowledge and skills to make the partner water operators stronger, financially sustainable and more (climate) resilient. VEI creates improved access to water and sanitation services, for approximately 350,000 people every year, mostly in low-income areas in Africa, Asia and Latin-America. Standing side by side as water operators, we strive to continuously increase our impact for people living in poverty, by systemically improving the maturity of working processes of our WOP partners, supported by peer-to-peer collaboration, training, technical assistance and smart investments.

VEI is a full subsidiary of Vitens N.V. and Evides Waterbedrijf N.V. and implements the international Corporate Social Responsibility policy on behalf of seven Dutch drinking water utilities:

- Vitens N.V.
- Evides Waterbedrijf N.V.
- WML
- Waterbedrijf Groningen
- Brabant Water
- WLN
- PWN
